With the arrival of children the environment of the school turned lively again.

## *Proactive Primary Students*

Our primary students have started working on Data Notebook. The aim is to motivate them to "Be Proactive". They will be in charge of themselves as : \* They have a "Can do" attitude. \*They try their level best at everything they do. \*They choose their actions, attitudes, and moods and they don't blame others for their wrongdoing.

Kids will also experience how good it feels to be proactive. Positive results breed internal motivation, so the more proactive kids are, the more motivated they become to take control of and responsibility for their decisions.
